Association of  
Water  
Professionals

## SUSTAINABLE STRATEGIES AND TECHNOLOGIES SERIES

### Georgia's Critical Path to Sustainable Water Solutions *Approved by USGBC for 3 GBCI CE Hours*

**IREM Institute of Real Estate Management** and the Quality Growth

Institute have partnered to present a course on the current legal standing with the Federal District Court in the water dispute with the states of Alabama and Florida and the results of the Governor's Water Planning Task Force.

You will also learn about:

- The clear interpretation of Georgia's new water conservation legislation
- Mandated and incentivized water conservation solutions
- How local governments are planning to react to the water challenges
- Predictions on future water availability, regulation and cost, both near and long -term
- The latest no-tech, lo-tech and high-tech solutions for water use efficiency
- Case Studies on promising, value-add water conservation and efficiency strategies
